MAINTENANCE

All pieces are lacquered with a protective finish to give a durable and stain-resistant surface. Dust regularly with a soft cloth (we recommend a microfibre one) and water to clean from time to time – especially after contact with food – and then use another cloth to dry the surface. The use of solvent-based, acid and abrasive products must be avoided. Also avoid the use of appliances transmitting pressure of high temperature and adhesive tape over the metal gold leaf.

IMPORTANT

The products of ALEX MINT Company are the result of a taxing process, completely handmade from qualified staff; they should be handled with care as forms of handmade art expression. Variation on shades of colours should be considered as natural characteristics that make this item unique and original.

CARE INSTRUCTIONS

Our top-quality marbles used in each collection, are protected with a resin, that shields the natural stone. In order to clean them, we suggest using a very mild detergent and a non-abrasive pad or cloth. In case of a spillage event, use a clean, dry cloth immediately. The solid brass elements should also be cleaned with a damp cloth, avoiding abrasive cleaners, pads or sponges. For more details regarding your product's care, please do not hesitate to get in touch with us.
